MEMORANDUM TO: [REDACTED]

SUBJECT : Planning Proposal for Reporting System

1. Late Friday morning, [REDACTED] spoke to me regarding attachments. He was quite concerned that there be no development in communications reporting which merely added to the "documentation in the Washington area" and wanted it thoroughly understood that he was most anxious to reduce in anyway possible unnecessary reporting.

2. He asked that I prepare a memorandum and attached you will find a suggested paper for his signature. [REDACTED] hoped for fairly early action on this by you and suggested I might be able to help by perhaps talking with [REDACTED] to see if [REDACTED] had considered the larger question which [REDACTED] raises as well as the priority reporting of critical intelligence information.
